

## Solar Fund Policy

From: Building and Grounds Committee

Rent payments received from FLS Energy/Cypress Creek Renewables should be deposited into the Restricted Solar Fund.

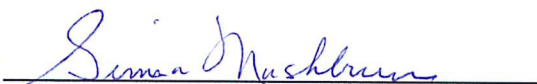

At the end of our contract with FLS (2021) we will have several options:

1. To keep the Solar Panels we have. We will negotiate a remaining balance price with FLS at that time.
2. To look at upgrading to new panels with FLS or another company looking at the new technology then available.
3. Have FLS remove the solar panels completely.

The money in the Solar Fund is to be used as start-up money for whatever option is proposed by Building and Grounds and approved by the Board.

Building and Grounds will start looking at new technology in 2020. This will give us a year to investigate what is in our best interest.

Approved by TVUUC Board

Date: January 15, 2019
