#### D02. Dinner a la Becky

6/7/2025 6:30 PM

I am a foodie and a chef. When I cook, there's no food left. Actually that's a little white lie because I always make an Xtra large batch, whether it's Grilled Watermelon Salad or Scampi with Pasta homemade from scratch. I rarely cook the same thing twice, So choosing my menu this early won't suffice. In June, I may not be able to find squid for Calamari, I might stick to Chicken with Goat Cheese Wontons and Tamari. You're welcome to let me know if you have menu restrictions or give requests to feed your desires and addictions, such as Chocolate Almond Cheesecake, or anything else you'd like me to create. (Swimming before or after the party is welcomed; maybe you'll play pool badminton with me after dinner.) Thanks to Becky Chaffee.

*Minimum \$20 Est. Value \$35 Quantity 8*

#### D03. Fireside New Orleans Dinner

1/19/2025 6:00 PM

We can make the reservation for you in person, as a way for us to make sure we pay for your dinner! :) ] Thanks to Barbara Thayer & Charles Bacon.

Each winning bidder will bring a 24 oz. container of soup for each person attending the luncheon, plus one extra that will be heated and sampled during the meal! Everyone leaves with yummy soup, and the recipes! Once the attendees are confirmed, we'll provide your 24 oz. containers and a list of the soups everyone is making to avoid duplicates. 5/24/2025 6:00 PM

Best of all, the charming founder is an authentic Italian chef who settled in Oklahoma. The restaurant reminded us of our favorite small restaurants in Cinque Terre on the rugged Italian Riviera coastline and Hester Street in New York City's Little Italy. We offer this dinner based on our fondest memories (just without the Octopus stew). Expect a Chinese Cowboy ragu on strange noodles, tarragon tai-chi soup, and other attempts to give the shades of things unknown a local habitation and a name, all rounded off with a Caribbean falernum-infused tiramisu or cannoli. Thanks to Kathy & Neil Greenberg.

CranioSacral Therapy (CST) is a light-touch healing approach that can create dramatic improvements in your life! CST involves assessing the whole body and encouraging the body to release deep tensions in order to reduce pain and dysfunction and improve whole-body health and performance. Your body can only handle so much tension before the tissues begin to tighten and potentially affect the brain and spinal cord. CST allows the entire body to relax and self-correct. By freeing the body to perform at its best, CST naturally reduces pain and stress, strengthens your resistance to disease, and enhances your health and well-being. Clients are able to relax while fully clothed and under a sheet and/or blanket on a massage table for the entire session. CST can be used for relaxation or to help with specific issues such as chronic pain, headaches, insomnia, or any stress-related issue, including post-traumatic stress. Some clients have even reported trippy experiences and visions, including one who said they saw purple angels and received a message from Jesus during their session!
